**PROGRESSIVENESS IN GOOD CLOTHES BUILDING**

CONSIDERED FROM THE CUSTOMER'S STANDPOINT

Take the man who now pays \$20 for a suit, though his limit used to be \$15. He looks better in the newer garments, and he knows it. Show him a suit for \$20 five years ago and he would laugh at the WORKMANSHIP. Neither the fit nor the tailoring would satisfy him today. Verily we are all progressing.

## THE TOWN OF BELLEVUE NOW A SMOLDERING RUIN

Belleveue, Texas, April 28.—The total property loss during Thursday night's cyclone will approximate \$200,000, according to the most conservative estimates. Other statements made by well-posted citizens place the losses at twice that amount.

Many of the wrecked and burned buildings were insured, but it is hard to obtain the exact figures.

Thirteen coffins were sent to Bellevue from Henrietta and the victims of the disaster were buried at 4 o'clock last afternoon.

One of the fields near the city contained about 100 dead horses which had been removed from town. Many of these had been maimed and were shot to put them out of misery. All live stock and fowls in the town was killed except a few chickens and one or two horses. One horse had a sharp stick driven into his head by the force of the wind. Fowls had their feathers stripped off as if they had been plucked by hand. Nails were driven an inch into trees by the wind. Wagon wheels had their spokes and hubs blown out.

During the cyclone one man was struck in the side by a piece of flying scantling. It required the united efforts of three strong men to pull it from his body.

All that remains of Bellevue is smoldering ruins.

We have just received an elegant line of Seward's candies. Try them. Model Bakery. tf 15

## VETERANS REUNION CLOSED WITH A GORGEOUS PARADE

New Orleans, La., April 28.—With a parade several miles in length and requiring one hour and forty minutes to pass in review, the sixteenth annual reunion of Confederate Veterans closed last afternoon, under the same blue skies and bright sunshine which welcomed its opening last Wednesday morning.

The week has been delightful and despite the thinned ranks of the aged warriors, this reunion has been pronounced the most enjoyable ever held. It cost the local entertainment committee \$4,500.

All trains last night were packed and jammed with the veterans and their fair daughters returning home.

**I. T. Crop Increase.**

Muskogee, I. T., April 28.—The person who looks up government reports on agricultural statistics and figures Indian Territory in this year on the same basis as last year will miss his guess by a long shot. This is because of a year of heavy immigration, the passing of land titles from Indian and negroes to white men and an increased cultivated area that will be at least twenty-five per cent greater than it was last year.

## GRAND JURY FAILED TO INDICT ROLL THIEVES

Muskogee, I. T., April 28.—Contrary to all expectation, the federal grand jury has adjourned with a stormy closing session without returning indictments against the parties who stole and copied the Indian rolls. As a result there is a very strong probability that a special grand jury will be called and the case taken up again. District Attorney Wm. Mellette is very much dissatisfied with the action of the grand jury. He thinks that indictments should have been returned and says that he would be very glad if a special grand jury is called to investigate the matter.

Both Mr. Mellette and Commissioner Tams Bixby are satisfied that there was proof conclusive shown the grand jury as to who stole and copied the Creek Indian rolls. There was not evi-

dence to show who stole the Seminole roll.

The grand jury evidently failed to bring indictments on the ground that there was no statute covering the case. This opinion is held by a good many attorneys here, but in a legal opinion delivered to the grand jury District Attorney Mellette held that the statutes do cover the case and that indictments were returnable on proof.

The matter has gained so much publicity that the officers propose to punish the guilty parties if it is possible to do so.

There is a strong public sentiment here that all Indian rolls should be public and both Bixby and Mellette are of the opinion that this had a good deal to do with the final decision of the grand jury.

## ARE OIL LAND LESSEES IN LEAGUE WITH THE STANDARD

Washington, April 28.—Suspecting that Guffey and Gailey in leasing oil lands in Indian territory are operating in the interest of the Standard Oil Company, Secretary Hitchcock has called on those gentlemen to prove that they have not violated the fundamental condition of the lease, which is that "no lease shall be sublet, transferred or assigned without the consent or approval of the secretary of the interior." Guffey and Gailey have recently transferred their leases in Indian territory to T. N. Barnsdall without notifying the department of the transfer, and to this extent, at least, they seem to have violated the conditions of their lease. Whether Barnsdall is the representative of the Standard Oil

Company remains to be determined.

The matter was first called to the attention of the Secretary about two weeks ago by J. George Wright, Indian inspector at Muskogee.

Barnsdall is said to have paid Guffey and Gailey \$2,500,000 for their leases and then capitalized them at \$8,000,000. It was this large capitalization which aroused the suspicion that the Standard Oil Company was the financial power back of Barnsdall.

The law on the subject is very clear. Not only does it provide that the leases shall not be transferred without the consent of the secretary of the interior, but that not more 4,800 acres of land shall be held by any one individual, firm or corporation.

## SCHEME DEVISED TO BUILD A CITY MOST MAGNIFICENT

San Francisco, April 28.—A grand scheme has been devised for building the city of San Francisco of magnificent buildings, terraces, boulevards, green parks and playgrounds and gardens. City Engineer Thomas P. Woodward, who is working his plans into shape faces a stupendous task. Personal holdings will not be confiscated, but everything taken by the municipality will be paid for.

One prominent feature of Mr. Woodward's comprehensive scheme is the widening of Van Ness avenue into a magnificent boulevard. To this end, he proposes the acquisition by the city through condemnation proceedings, of all the choice residence property covering the full length of Van Ness avenue. If the city engineer has his way and is given the support of the public there will be no narrow and logging streets in those sections of the city laid bare by fire. Streets in the heart of the business district which have been proven entirely inadequate for the use of a big metropolis, will be widened by slicing from the private holdings

on either side through court proceedings.

**Teaching Corps Selected.**

The school board met at the court house Saturday morning and elected a corps of subordinate teachers for the next school year. Those reelected are Misses Mildred Timberlake, Villa Wilson, Nell Gwyn and Moyna Taylor. The new ones elected are: Misses Nena Thompson, Margaret Edmiston, Birdie Sims and Mrs. M. L. Perkins, all of Ada; Miss Myrtle Byrum of Leonard, Texas, Miss Beulah Stovall of Forney, Texas, Miss Carothers of Coalgate. One other position remains, which has been filled, but it is not known which of two parties will take it.

The board allowed some bills and discussed some matters of minor importance, after which it adjourned.

**For the Cyclone Sufferers**

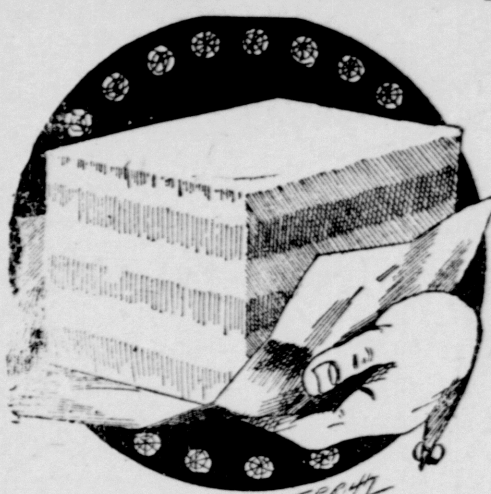

The ladies of Ada are engaged in a very laudable piece of beneficence, that of sending a shipment of wearing apparel to the cyclone sufferers at Bellevue, Texas. All donations of serviceable goods, new or old, will be thankfully received. But they must be delivered at the home of Mrs. J. A. Biles not later than Wednesday forenoon.

## OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

## PRICKLY ASH BITTERS

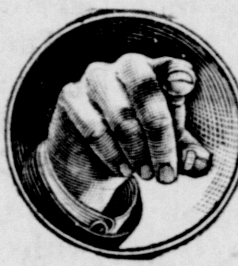

Is the Greatest Spring Tonic and Blood Purifier on Earth

### FIGHTING BLOOD

Fighting blood is pure, rich, vigorous blood. Pure blood is the foundation for an active mind, strong body and bold heart. Not only is it necessary in a trial of physical strength, but equally so in the mighty struggle for worldly wealth. The victim of impure blood is generally half sick, lacks spirit and energy, and is unable to stand the strain of the contest—besides he is in constant danger of contracting some life-threatening disease. To have pure blood the kidneys, liver, stomach and bowels must be free from obstructions, and strong in the performance of their functions. This desirable condition can be secured and maintained through the use of Prickly Ash Bitters, the "World-Celebrated" system cleanser and blood purifier. A short course with this great remedy vitalizes the blood and puts the system in good condition, invigorates the body, promotes good appetite, restful sleep and cheerful spirits.

### WAGE THE WAR ON FILTH.

The News heartily indorses Mayor Wood's vigorous proclamation touching the enforcement of the city's health ordinances. There is a ring of sincerity and resolution about it. The mayor evidently has begun his administration of the city's affairs with an unalterable

determination to enforce strict obedience to the municipal laws. Good citizens should rally to his support and those indifferent to civic obligations had best take warning.

Probably there are numerous towns as dirty as Ada, and some much dirtier. In places of size intermediate between the town and the city it is always a tremendous task to enforce thorough sanitary regulations. It seems hard for the inhabitants to outgrow the loose and irregular sanitation of the average hamlet and farm life—unmindful, as they are, of the big difference, not considering that in the latter case for every yard of filth there is a counteractant of broad acres of pure rural air.

Yes, it is hard for people not bred up under the rigid regulations of city life to grasp the necessity for such regulations where men live thick. But the necessity exists; the regulations exist here in Ada and folks have got to conform.

That filth begets disease is one of the oldest truisms. Physicians so warn us and we know it without the warning. If an Ada father absolutely knew his child would die of scarlet fever or diphtheria this summer unless hundreds of dollars were spent by the householders in cleaning up the town and keeping it clean, while in case the expenditure was made the child would go unscathed, how exercised would that father be in complying with the city's health laws and in helping make others comply! Yet such are the conditions imperiling the life of somebody's darlings in Ada today.

With a clean town we will have enough disease and death; but with a filthy town we are in peril of plagues unspeakable. Get busy, people, and help the scavenger and the mayor clean up! Then make your neighbor clean up!

### Hold the Badger in Luck.

Friday afternoon one of the local sportsman, in conversation with Mr. Cummings, the tailor, ascertained the latter was not familiar with the technique of the badger fight, so popular a sport in the West. Mr. Cummings hailing originally from England is not yet very familiar with the ways of the West. But he is fast becoming so.

Naturally the conversation eventuated in the matching of a big fight between a badger and a brindle bull dog. As the shades of evening came on men by the score and double score mobilized about the appointed arena in the rear of the postoffice block. Both of the beasts had enthusiastic backers and for a time the betting was fast and furious, such as to make the eager Englishman stare with astonishment. Finally the timekeeper demanded that the fight begin. The referees and the man with the dog in leash took their places. Then a big squabble arose, of course, over who should hold the badger's rope. Everybody suggested was objected to for first one reason and then another. Soon Cummings was suggested as the man, and there was not a dissenting voice, inasmuch as he was a comparative stranger and unversed in the tricks of the game. After an unusual amount of coaxing he was induced to serve. He grasped the cord and at the signal gave a mighty heave—and it was all over but the shouting and the cigars.

After awhile the Englishman came to and consoled himself in this wise: "The free advertisement is well worth \$100 to me. Before tonight no one knew me; now everyone does."

## THE TOWN OF BELLEVUE NOW A SMOLDERING RUIN

Bellevue Texas, April 28.—The total property loss during Thursday night's cyclone will approximate \$100,000, according to the most conservative estimates. Other statements made by well posted citizens place the losses at twice that amount.

Many of the wrecked and burned buildings were insured, but it is hard to obtain the exact figure.

Thirteen coffins were sent to Bellevue from Henrietta and the victims of the disaster were buried at 4 o'clock last afternoon.

One of the fields near the city contained about 100 dead horses which had been removed from town. Many of these had been maimed and were shot to put them out of misery. All live stock and fowl in the town was killed except a few chickens and one or two horses. One horse had a sharp stick driven into his head by the force of the wind. Fowls had their feathers stripped off as if they had been plucked by hand. Nails were driven an inch into trees by the wind. Wagon wheels had their spokes and hubs blown out.

During the cyclone one man was struck in the side by a piece of flying scathing. It required the united efforts of three strong men to pull it from his body.

All that remains of Bellevue is smoldering ruins.

We have just received an elegant line of Seward's candies. Try them. Model Bakery. tf 15

## VETERANS REUNION CLOSED WITH A GORGEOUS PARADE

New Orleans, La., April 28.—With a parade several miles in length and requiring one hour and forty minutes to pass in review, the sixteenth annual reunion of Confederate Veterans closed last afternoon, under the same blue skies and bright sunshine which welcomed its opening last Wednesday morning.

The week has been delightful and despite the thinned ranks of the aged warriors, this reunion has been pronounced the most enjoyable ever held. It cost the local entertainment committee \$4,500.

All trains last night were packed and jammed with the veterans and their fair daughters returning home.

### I. T. Crop increase.

Muskogee, I. T., April 28.—The person who looks up government reports on agricultural statistics and figures Indian Territory in this year on the same basis as last year will miss his guess by a long shot. This is because of a year of heavy immigration, the passing of land titles from Indian and negroes to white men and an increased cultivated area that will be at least twenty-five per cent greater than it was last year.

Dr. B. H. Dentist, over Ada National Bank. tf 279

## GRAND JURY FAILED TO INDICT ROLL THIEVES

Muskogee, I. T., April 28.—Contrary to all expectation, the federal grand jury has adjourned without returning indictments against the parties who stole and copied the Indian rolls. As a result there is a very strong probability that a special grand jury will be called and the case taken up again. District Attorney Wm. Mellette is very much dissatisfied with the action of the grand jury. He thinks that indictments should have been returned and says that he would be very glad if a special grand jury is called to investigate the matter.

Both Mr. Mellette and Commissioner Tams Bixby are satisfied that there was proof conclusive shown the grand jury as to who stole and copied the Creek Indian rolls. There was not evi-

dence to show who stole the Seminole roll.

The grand jury evidently failed to bring indictments on the ground that there was no statute covering the case. This opinion is held by a good many attorneys here, but in a legal opinion delivered to the grand jury District Attorney Mellette held that the statutes do cover the case and that indictments were returnable on proof.

The matter has gained so much publicity that the officers propose to punish the guilty parties if it is possible to do so.

There is a strong public sentiment here that all Indian rolls should be public and both Bixby and Mellette are of the opinion that this had a good deal to do with the final decision of the grand jury.

## ARE OIL LAND LESSEES IN LEAGUE WITH THE STANDARD

Washington, April 28.—Suspecting that Guffey and Gailey in leasing oil lands in Indian territory are operating in the interest of the Standard Oil Company, Secretary Hitchcock has called on those gentlemen to prove that they have not violated the fundamental condition of the lease, which is that "no lease shall be sublet, transferred or assigned without the consent or approval of the secretary of the interior." Guffey and Gailey have recently transferred their leases in Indian territory to T. N. Barnsdall without notifying the department of the transfer, and to this extent, at least, they seem to have violated the conditions of their lease. Whether Barnsdall is the representative of the Standard Oil

Company remains to be determined.

The matter was first called to the attention of the Secretary about two weeks ago by J. George Wright, Indian inspector at Muskogee.

Barnsdall is said to have paid Guffey and Gailey \$2,500,000 for their leases and then capitalized them at \$8,000,000. It was this large capitalization which aroused the suspicion that the Standard Oil Company was the financial power back of Barnsdall.

The law on the subject is very clear. Not only does it provide that the leases shall not be transferred without the consent of the secretary of the interior, but that not more than 4,800 acres of land shall be held by any one individual firm or corporation.

## SCHEME DEVISED TO BUILD A CITY MOST MAGNIFICENT

San Francisco, April 28.—A grand scheme has been devised for building the city of San Francisco of magnificent buildings, terraces, boulevards, green parks and play grounds and gardens. City Engineer Thomas P. Woodward, who is working his plans into shape faces a stupendous task. Personal holdings will not be confiscated, but everything taken by the municipality will be paid for.

One prominent feature of Mr. Woodward's comprehensive scheme is the widening of Van Ness avenue into a magnificent boulevard. To this end, he proposes the acquisition by the city through condemnation proceedings, of all the choice residence property covering the full length of Van Ness avenue. If the city engineer has his way and is given the support of the public there will be no narrow and logging streets in those sections of the city laid bare by fire. Streets in the heart of the business district which have been proven entirely inadequate for the use of a big metropolis, will be widened by slicing from the private holdings

on either side through court proceedings.

### Teaching Corps Selected.

The school board met at the court house Saturday morning and elected a corps of subordinate teachers for the next school year. Those re-elected are Misses Mildred Timberlake, Villa Wilson, Nell Gwyn and Moyna Taylor. The new ones elected are: Misses Nena Thompson, Margaret Edmiston, Birdie Sims and Mrs. M. L. Perkins, all of Ada; Miss Myrtle Byrum of Leonard, Texas, Miss Beulah Stovall of Forney, Texas, Miss Carothers of Coalgate. One other position remains, which has been filled, but it is not known which of two parties will take it. The board allowed some bills and discussed some matters of minor importance, after which it adjourned.

### For the Cyclone Sufferers

The ladies of Ada are engaged in a very laudable piece of beneficence, that of sending a shipment of wearing apparel to the cyclone sufferers at Bellevue, Texas. All donations of serviceable goods, new or old, will be thankfully received. But they must be delivered at the home of Mrs. J. A. Biles not later than Wednesday forenoon.

## OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the controller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusinesslike habit of overdrafts grow out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

### FIGHTING BLOOD

Fighting blood is pure, rich, vigorous blood. Pure blood is the foundation for an active mind, strong body and bold heart. Not only is it necessary in a trial of physical strength, but equally so in the mighty struggle for worldly wealth. The victim of impure blood is generally half sick, lacks spirit and energy and is unable to stand the strain of the contest—besides he is in constant danger of contracting some life-threatening disease. To have pure blood the kidneys, liver, stomach and bowels must be free from obstructions, and strong in the performance of their functions. This desirable condition can be secured and maintained through the use of Prickly Ash Bitters, the "World-Celebrated" system cleanser and blood purifier. A short course with this great remedy vitalizes the blood and puts the system in good condition, invigorates the body, promotes good appetite, restful sleep and cheerful spirits.

### WAGE THE WAR ON FILTH

The News heartily indorses Mayor Wood's vigorous proclamation touching the enforcement of the city's health ordinances. There is a ring of sincerity and resolution about it. The mayor evidently has begun his administration of the city's affairs with an unalterable

determination to enforce strict obedience to the municipal laws. Good citizens should rally to his support and those indifferent to civic obligations had best take warning.

Probably there are numerous towns as dirty as Ada, and some much dirtier. In places of size intermediate between the town and the city it is always a tremendous task to enforce thorough sanitary regulations. It seems hard for the inhabitants to outgrow the loose and irregular sanitation of the average hamlet and farm life—unmindful, as they are, of the big difference, not considering that in the latter case for every yard of filth there is a counteractant of broad acres of pure rural air.

Yes, it is hard for people not bred up under the rigid regulations of city life to grasp the necessity for such regulations where men live thick. But the necessity exists; the regulations exist here in Ada and folks have got to conform.

That filthy begets disease is one of the oldest truisms. Physicians warn us and we know it without the warning. If an Ada father absolutely knew his child would die of scarlet fever or diphtheria this summer unless hundreds of dollars were spent by the householders in cleaning up the town and keeping it clean, while in case the expenditure was made the child would go unscathed, how exerted would that father be in complying with the city's health laws and in helping make others comply? Yet such are the conditions imperiling the life of somebody's darlings in Ada today.

With a clean town we will have enough disease and death; but with a filthy town we are in peril of plagues unspeakable. Get busy, people, and help the scavenger and the mayor clean up! Then make your neighbor clean up!

The party of eight men who went to the Choctaw country a week ago on a fishing trip returned home this morning. They state they had a delightful outing and caught and killed a plenty. None of them got shot or suffered any poisonous snake bites.

### Bail Allowed the Harkinses.

J. P. Crawford, Esq., returned today from Chickasha where upon a hearing before the U. S. judge he succeeded in getting bail allowed for Charlis and Nels. Harkins, the Indians accused of killing John Anderson near Ahloso recently. The bond of the old man was set at \$2,500, that of Nels. at \$4,000. It is thought bondsmen will be readily forthcoming.

### Had to be Helped to Jail.

Deputy U. S. Marshal Chapman Friday night escorted to the Ardmore jail one Bill Stanton of Sulphur. For selling liquor Bill was sentenced at last term of court to twenty days confinement in jail. The judge instructed him to return to Sulphur, arrange his affairs and report at the Ardmore office for incarceration the following Monday. This he failed to do, hence the officer's assistance.

Bill claims he went to Ardmore once to serve the time, but after taking a reconnoitering stroll around the prison premises, his courage failed him and he hiked back home.

Henry Cummings, one of the local sportsman, in conversation with Mr. Cummings, the tailor, ascertained the latter was not familiar with the technique of the badger fight, so popular a sport in the West. Mr. Cummings hailing originally from England is not yet very familiar with the ways of the West. But he is fast becoming so.

Naturally the conversation eventuated in the matching of a big fight between a badger and a brindle bull dog. As the shades of evening came on men by the score and double score mobilized about the appointed arena in the rear of the postoffice block. Both of the beasts had enthusiastic backers and for a time the betting was fast and furious, such as to make the eager Englishman stare with astonishment. Finally the timekeeper demanded that the fight begin. The referees and the man with the dog in leash took their places. Then a big squabble arose, of course, over who should hold the badger's rope. Everybody suggested was objected to for first one reason and then another. "Soon Cummings was suggested as the man, and there was not a dissenting voice, inasmuch as he was a comparative stranger and unversed in the tricks of the game. After an unusual amount of coaxing he was induced to serve. He grasped the cord and at the signal gave a mighty heave—and it was all over but the shouting and the oigans. After awhile the Englishman came to and consoled himself in this wise: "The free adwrtisement is well worth \$100 to me. Before tonight no one knew me; now everyone does."

## THE TOWN OF BELLEVUE NOW A SMOLDERING RUIN

Bellevue Texas, April 28.—The total property loss during Thursday night's cyclone will approximate \$200,000, according to the most conservative estimates. Other statements made by well posted citizens place the losses at twice that amount.

Many of the wrecked and burned buildings were insured, but it is hard to obtain the exact figures.

Thirteen coffins were sent to Bellevue from Henrietta and the victims of the disaster were buried at 4 o'clock last afternoon.

One of the fields near the city contained about 100 dead horses which had been removed from town. Many of these had been maimed and were shot to put them out of misery. All live

stock and fowls in the town was killed except a few chickens and one or two horses. One horse had a sharp stick driven into his head by the force of the wind. Fowls had their feathers stripped off as if they had been plucked by hand. Nails were driven an inch into trees by the wind. Wagon wheels had their spokes and hubs blown out.

During the cyclone one man was struck in the side by a piece of flying scantling. It required the united efforts of three strong men to pull it from his body.

All that remains of Bellevue is smoldering ruins.

We have just received an elegant line of Seward's candies. Try them. Model Bakery. tf 15

## VETERANS REUNION CLOSED WITH A GORGEOUS PARADE

New Orleans, La., April 28.—With a parade several miles in length and requiring one hour and forty minutes to pass in review, the sixteenth annual reunion of Confederate Veterans closed last afternoon, under the same blue skies and bright sunshine which welcomed its opening last Wednesday morning.

The week has been delightful and despite the thinned ranks of the aged warriors, this reunion has been pronounced the most enjoyable ever held. It cost the local entertainment committee \$4,500.

All trains last night were packed and jammed with the veterans

and their fair daughters returning home

I. T. Crop Increase.

Muskogee, I. T., April 28.—The person who looks up government reports on agricultural statistics and figures Indian Territory in this year on the same basis as last year will miss his guess by a long shot. This is because of a year of heavy immigration, the passing of land titles from Indian and negroes to white men and an increased cultivated area that will be at least twenty-five per cent greater than it was last year.

Dr. Elliott, Dentist, over Ada National Bank. tf 279

## GRAND JURY FAILED TO INDICT ROLL THIEVES

Muskogee, I. T., April 28.—Contrary to all expectation, the federal grand jury has adjourned with a stormy closing session without returning indictments against the parties who stole and copied the Indian rolls. As a result there is a very strong probability that a special grand jury will be called and the case taken up again. District Attorney Wm. Mellette is very much dissatisfied with the action of the grand jury. He thinks that indictments should have been returned and says that he would be very glad if a special grand jury is called to investigate the matter.

Both Mr. Mellette and Commissioner Tams Bixby are satisfied that there was proof conclusive shown the grand jury as to who stole and copied the Creek Indian rolls. There was not evi-

dence to show who stole the Seminole roll.

The grand jury evidently failed to bring indictments on the ground that there was no statute covering the case. This opinion is held by a good many attorneys here, but in a legal opinion delivered to the grand jury District Attorney Mellette held that the statutes do cover the case and that indictments were returnable on proof.

The matter has gained so much publicity that the officers propose to punish the guilty parties if it is possible to do so.

There is a strong public sentiment here that all Indian rolls should be public and both Bixby and Mellette are of the opinion that this had a good deal to do with the final decision of the grand jury.

## ARE OIL LAND LESSEES IN LEAGUE WITH THE STANDARD

Washington, April 28.—Suspecting that Guffey and Gailey in leasing oil lands in Indian territory are operating in the interest of the Standard Oil Company, Secretary Hitchcock has called on those gentlemen to prove that they have not violated the fundamental condition of the lease, which is that "no lease shall be sublet, transferred or assigned without the consent or approval of the secretary of the interior." Guffey and Gailey have recently transferred their leases in Indian territory to T. N. Barnsdall without notifying the department of the transfer, and to this extent, at least, they seem to have violated the conditions of their lease. Whether Barnsdall is the representative of the Standard Oil

Company remains to be determined.

The matter was first called to the attention of the Secretary about two weeks ago by J. George Wright, Indian inspector at Muskogee.

Barnsdall is said to have paid Guffey and Gailey \$2,500,000 for their leases and then capitalized them at \$8,000,000. It was this large capitalization which aroused the suspicion that the Standard Oil Company was the financial power back of Barnsdall.

The law on the subject is very clear. Not only does it provide that the leases shall not be transferred without the consent of the secretary of the interior, but that not more 4,800 acres of land shall be held by any one individual firm or corporation.

## SCHEME DEVISED TO BUILD A CITY MOST MAGNIFICENT

San Francisco, April 28.—A grand scheme has been devised for building the city of San Francisco of magnificent buildings, terraces, boulevards, green parks and play grounds and gardens. City Engineer Thomas P. Woodward, who is working his plans into shape faces a stupendous task. Personal holdings will not be confiscated, but everything taken by the municipality will be paid for.

One prominent feature of Mr. Woodward's comprehensive scheme is the widening of Van Ness avenue into a magnificent boulevard. To this end, he proposes the acquisition by the city through condemnation proceedings, of all the choice residence property covering the full length of Van Ness avenue. If the city engineer has his way and is given the support of the public there will be no narrow and logging streets in those sections of the city laid bare by fire. Streets in the heart of the business district which have been proven entirely inadequate for the use of a big metropolis, will be widened by slicing from the private holdings

on either side through court proceedings.

Teaching Corps Selected.

The school board met at the court house Saturday morning and elected a corps of subordinate teachers for the next school year. Those re-elected are Misses Mildred Timberlake, Villa Wilson, Nell Gwyn and Moyna Taylor. The new ones elected are: Misses Nena Thompson, Margaret Edmiston, Birdie Sims and Mrs. M. L. Perkins, all of Ada; Miss Myrtle Byrum of Leonard, Texas, Miss Beulah Stovall of Forney, Texas, Miss Carothers of Coalgate. One other position remains, which has been filled, but it is not known which of two parties will take it.

The board allowed some bills and discussed some matters of minor importance, after which it adjourned.

For the Cyclone Sufferers

The ladies of Ada are engaged in a very laudable piece of beneficence, that of sending a shipment of wearing apparel to the cyclone sufferers at Bellevue, Texas. All donations of serviceable goods, new or old, will be thankfully received. But they must be delivered at the home of Mrs. J. A. Biles not later than Wednesday forenoon.

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small way, and this, it matters not how small, is not approved by the powers that be. This unbusiness-like habit of overdrafts grow out of advancing on moving products, such as cotton, grain and fat stock on the move. The overdraft system is wrong and the man whose account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

### FIGHTING BLOOD

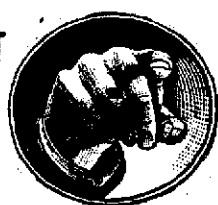

Fighting blood is pure, rich, vigorous blood. Pure blood is the foundation for an active mind, strong body and bold heart. Not only is it necessary in a trial of physical strength, but equally so in the mighty struggle for worldly wealth. The victim of impure blood is generally half sick, lacks spirit and energy, and is unable to stand the strain of the contest—besides he is in constant danger of contracting some life-threatening disease. To have pure blood the kidneys, liver, stomach and bowels must be free from obstructions, and strong in the performance of their functions. This desirable condition can be secured and maintained through the use of Prickly Ash Bitters, the "World-Celebrated" system cleanser and blood purifier. A short course with this great remedy vitalizes the blood and puts the system in good condition, invigorates the body, promotes good appetite, restful sleep and cheerful spirits.

### WAGE THE WAR ON FILTH.

The News heartily indorses Mayor Wood's vigorous proclama-  
tion touching the enforcement of the city's health ordinances. There  
is a ring of sincerity and resolution about it. The mayor evidently  
has begun his administration of the city's affairs with an unalterable

determination to enforce strict obedience to the municipal laws.  
Good citizens should rally to his support and those indifferent to  
civic obligations had best take warning.

Probably there are numerous towns as dirty as Ada, and some  
much dirtier. In places of size intermediate between the town and  
the city it is always a tremendous task to enforce thorough sanitary  
regulations. It seems hard for the inhabitants to outgrow the loose  
and irregular sanitation of the average hamlet and farm life—un-  
mindful, as they are, of the big difference, not considering that in  
the latter case for every yard of filth there is a counteractant of  
broad acres of pure rural air.

Yes, it is hard for people not bred up under the rigid regulations  
of city life to grasp the necessity for such regulations where men  
live thick. But the necessity exists; the regulations exist here in  
Ada and folks have got to conform.

That filth begets disease is one of the oldest truisms. Physi-  
cians so warn us and we know it without the warning. If an Ada  
father absolutely knew his child would die of scarlet fever or diphe-  
theria this summer unless hundreds of dollars were spent by the  
householders in cleaning up the town and keeping it clean, while in  
case the expenditure was made the child would go unscathed, how  
exercised would that father be in complying with the city's health  
laws and in helping make others comply! Yet such are the condi-  
tions imperiling the life of somebody's darlings in Ada today.

With a clean town we will have enough disease and death; but  
with a filthy town we are in peril of plagues unspeakable. Get busy,  
people, and help the scavenger and the mayor clean up! Then make  
your neighbor clean up!

From the Editor's Desk.

Today, Saturday, the 24th, the local sportsman, in conversation with Mr. Cummings, the tailor, ascertained the latter was not familiar with the technique of the badger fight, so popular a sport in the West. Mr. Cummings hailing originally from England is not yet very familiar with the ways of the West. But he is fast becoming so.

Naturally the conversation eventuated in the matching of a big fight between a badger and a brindle bull dog. As the shades of evening came on men by the score and double score mobilized about the appointed arena in the rear of the postoffice block. Both of the beasts had enthusiastic backers and for a time the betting was fast and furious, such as to make the eager Englishman stare with astonishment. Finally the timekeeper demanded that the fight begin. The referees and the man with the dog in leash took their places. Then a big squabble arose, of course, over who should hold the badger's rope. Everybody suggested was objected to for first one reason and then another. "Soon Cummings was suggested as the man, and there was not a dissenting voice, inasmuch as he was a comparative stranger and unversed in the tricks of the game. After an unusual amount of coaxing he was induced to serve. He grasped the cord and at the signal gave a mighty heave—and it was all over but the shouting and the oars. After awhile the Englishman came to and consoled himself in this wise: "The free advertisement is well worth \$100 to me. Before tonight no one knew me; now everyone does."
